We have carefully chosen these cookies and had taken steps to ensure that your privacy is protected and respected at all times. We use Cookies and similar tracking technologies to track the activity on Our Service and store certain information. Tracking technologies used are beacons, tags, and scripts to collect and track information and to improve and analyze Our Service.

- **Tracking and Performance Cookies**

Type: Persistent Cookies

Purpose: These Cookies are used to track information about traffic to the Website and how users use the Website. These cookies collect information about how you use our

websites, for instance, which pages you go to most. This data may be used to help optimize our websites and make them easier for you to navigate. Currently We use special Google Analytics cookies (_ga and _ga<container-id>, duration: 2 years) which are used for user identification and session state preservation. The _ga cookie, installed by Google Analytics, calculates visitor, session, campaign data, and also keeps track of site usage for the site's analytics report. The cookie stores information anonymously and assigns a randomly generated number to recognize unique visitors.

Google Analytics receives data from the following sources:

- User HTTP requests (information about the browser and computer sending the request, such as hostname, browser type, referrer, and language).
- Browser/system information (e.g., screen resolution).
- Main cookie files (user session information).

With Google Analytics, we collect Website User information about webpage views, scrolling, outbound clicks, site search, interactions with forms and videos, file downloads, city, browser version, User-Agent string, device brand, model, name, operating system version, platform version, and screen resolution.
